

# **CWS32-H01-LT/PRO - Information Before Installation**

## **Rev: 1.1 - July 2007**

Please verify the compatibility of the operating system before beginning the installation

### **Attention:**

Using Windows 2000 it is indispensable the Service Pack 4

Using Windows Server 2003 it is indispensable the Service Pack 1

Please verify the correct functionality and compatibility of the PC communication port to which it will be connected the instrument before actually connecting it

Please verify if other programs are already using the communication port which we intend to use for the connection of the instrument, in such case install to an other port

Always make a complete PC Back-Up before proceeding to the installation so to be able to come back easily to the original condition in case of problems and avoid a loss of data.

Before proceeding to the installation disable all the other running programs
